Rafał Schmidt

Engineering Manager - Platform

Profile

- Platform engineering leader with 10+ years in software. Building and operating platforms serving 100+ developers across 200+ microservices.
- Experience in multi-region reliability, deployment safety, fleet-scale migrations, and distributed systems. Led HA architecture from design to rollout.
- Product-oriented with a passion for system design and people management. Conference speaker at JDD, Devoxx, 4Developers, Dotnetos.
- Broad knowledge of Microsoft technology stack including .NET and Azure Cloud. Microsoft Azure Certified Expert.

Employment History

Manager, Engineering at Allegro, Warszawa

April 2025 — Present

- Led the HA multi-region stream end-to-end: architecture, CI/CD patterns, and rollout for running critical services across two regions with defined RTO/RPO targets.
- Split the platform engineering team: ownership matrix, knowledge mapping, and shared learnings.
- Drove disaster recovery practices with a criticality framework, guardrails, reporting, and AI-powered agentic automation for teams.
- Led fleet-scale migrations (e.g. Spring Boot upgrade) using AI-assisted tooling. Supported GitHub migration from Azure DevOps with self-service workflows.
- Working with Azure, AKS (Kubernetes), ArgoCD, .NET and Java ecosystems. Platform serving 100+ developers across 200+ microservices.

Senior Software Engineer at Allegro, Kraków

October 2022 — April 2025

- Led the SLA stream: identified business owners and critical processes, built reporting, playbooks, and alerting policies. Introduced symptom-based alerting system adopted across Allegro Pay products.
- Designed and shipped Allegro Cash (cashback program).
- Served as a Bar Raiser, conducting 40+ interviews and shaping recruitment standards.

Software Engineer at Allegro, Kraków

April 2021 — October 2022

- Delivered Allegro Care, the platform's insurance product.
- Conducted system design and technical interviews (25+).
- Conference speaker: 4Developers, JDD, Devoxx, Dotnetos, KGD, WGNET. Organized a Kubernetes workshop for Allegro Pay. Azure Solutions Architect Expert certification.

Software Engineer at Forte_ Digital, Kraków

April 2020 — March 2021

- Developed web channels and digital service platforms for Scandinavian companies, including Agder Energi (energy & utility), Virke (advocacy), and Gyldendal (media publishing).
- Organized internal initiatives like hackathons and onboarding programs.

Software Engineer, Freelancer

March 2014 — April 2020

- Acquired multiple clients and delivered end-to-end solutions across diverse technologies. Managed hosting, domains, and infrastructure.
- During this period, also contributed to building software for Calypso Fitness Clubs (Iskrzy, Rybnik) and collaborated with designers on website development (Refocus Media, Bielsko-Biala).
